Height-adjustable Locking Nut

String height at the nut can easily be customized with our exclusive height-adjustable locking nut. This versatile nut allows action at the low frets to be optimized in a matter of minutes.

Access Angle Neck Joint

The Access Angle bolt-on neck system affords superior mechanical strength without compromising the player's ability to access the highest frets.

- Alnico "Live" Pickups—U.S.A. made Magnet [see page 35]
- TRS-Pro* Vibrato System [see page 36]
