

Yamaha SA 950

This is a very rare guitar indeed I have now found evidence of 3 of them. One on a Japanese blog with a picture that could be anything and one on an Ebay sale SYJ1024 which sold for a \$1099 in June 2013. More recently I came across SYJ1086 bought in 2010 by a then member of the Japanaxe forum. No pictures but stated to be Tobacco Sunburst.

All evidence suggests that these were made for a very short time in 1992 if anyone has a 1992 Japanese catalogue that references them that would help.

The Japanese blog via Google translate seems to suggest that there were only 91 of these made, but that could easily be a mistranslation of 1991.

March 2016 there is a 950 in Red Sunburst for sale at around £650 on a Japanese auction site. Seller confirms limited numbers made in 1992. Pictures at the end of this document which don't add much to the information we have.

Fret board	Block inlays
Radius	
Body	
Neck	
Hardware	Chrome
Pickups	2 HBs splittable
Colours	Red Sunburst Tobacco Sunburst <i>and others</i>
Weight	3.72 kgs

Pictures below are from the Ebay sale
