Vintage Yamaha guitar and bass - \$2,750 (Bay Ridge)

image 2 of 12

7410 Ridge Blvd

A matching set of rare vintage Yamahas for sale:

SA70 hollow body electric bass

SA series electric guitar (Gibson 335 copy)

Both are likely from 1974

The bass has new tuners and a tusq nut installed. New LaBella flat wound strings.

Some scratches in the finish and one small separation near the input jack where it seems to have been dropped. Doesn't affect playability, and overall pretty good shape for a 50 year old instrument.

Has an iconic thumpy tone and very smooth action. Thin neck like a Fender Jazz

The guitar is especially rare, possibly a custom order or prototype. Has a SA

series body shape with SG2000 pickups and fret inlays. SA2000 prototype?

Laminate maple body with mahogany center block, three piece neck, ebony fretboard.

Original except pots/wiring harness and pickguard.

I've been unable to find one like it online. I got it in a CL trade about 7 years ago and have enjoyed playing it very much. Only selling to get something lighter after having back surgery.

Bass has a gig bag, guitar has no case

\$1500 for guitar, \$1250 for bass

Would possibly consider trades. Trade both for high end archtop, especially light weight. Hamer Newport, Hofner

Verythin, vintage AS-200 or GB-10, etc.

Thanks for looking
